SEEING DOUBLE

MONDAY, 10 MARCH 2014

My current obsession with double finger rings knows no bounds this year. Wonderfully creative and conceptual, it is the inspirations behind the pieces that makes the rings, a treasurable keepsake with wonderful stories. From glamour to the unconventional, classic to modern edge, punk to understated elegance, these designs caters to your specific tastes and needs. Here are my current favourites:

MYRIAMSOS

Double Circle and Square Eternity Ring

Cutting edge and thoroughly original, MyriamSOS rings are inspired by modern architecture and the *less is more* philosophy. Fashion, architecture and sculptural art all rolled in one.
